Global Technology Scouting & Supplier Development Manager

The **Global Technology Scouting & Supplier Development Manager** is responsible for identifying emerging technologies and building a capable global supplier ecosystem to support current and future product strategies. The role bridges technology innovation, engineering, and supply chain to enable cost competitive, scalable, and high quality solutions.

Key Responsibilities

- Initiate, set up, and execute supplier performance management.
- Perform a yearly review of strategic equipment suppliers within BA UX globally and align a dedicated gap mitigation action plan.
- Support technology development and validation of innovative manufacturing technologies at supplier sites.
- Support alignment of sourcing release for new equipment and special process suppliers.
- Support the establishment of Continental BA UX Production Standards and Multi-Use Equipment.
- Scout and evaluate **emerging technologies, suppliers, and startups** aligned with business and product roadmaps
- Lead **supplier identification, qualification, and capability development** activities globally
- Collaborate with **engineering, R&D, purchasing, and quality teams** to translate technology needs into supplier strategies
- Drive **early supplier involvement (ESI)** during concept and development phases
- Assess suppliers for **technical capability, innovation maturity, scalability, cost, and risk**
- Support **make buy decisions, sourcing strategies, and localization initiatives**
- Manage technology benchmarking, proof of concepts, and supplier pilots
- Build long term strategic partnerships to ensure **innovation, quality, and supply continuity**

Required Skills & Qualifications

- Bachelor's or Master's degree in **Engineering, Technology Management, or Business**
- Strong understanding of **engineering technologies and manufacturing ecosystems**
- Experience in **technology scouting, supplier development, or strategic sourcing**
- Ability to evaluate both **technical and commercial aspects** of suppliers

Rólunk

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
