

# Manufacturing Process Engineering Technologist

## Vos activités

### Job Description

We are seeking a talented and innovative Manufacturing Engineering Technologist to join our team in New Braunfels, United States. In this role, you will be responsible for optimizing manufacturing processes, implementing automation technologies, and driving continuous improvement initiatives to enhance productivity, quality, and efficiency in our production facilities.

The expected annual salary range for this role is \$75,000 - \$98,000 a year depending on experience. This position is also eligible for a variable incentive program.

- Develop, implement, and maintain manufacturing processes and procedures to ensure optimal production efficiency and product quality
- Design and oversee the implementation of automation systems and equipment to improve manufacturing operations
- Conduct root cause analysis and implement corrective actions to address production issues and defects
- Create and maintain process documentation, including setup matrices, parameter cards, and work instructions
- Collaborate with cross-functional teams to support new product introductions and design for manufacturability (DFM) initiatives
- Lead continuous improvement projects to reduce costs, improve quality, and increase productivity
- Provide technical support and training to production staff on new processes, equipment, and technologies
- Analyze production data and metrics to identify areas for improvement and implement solutions
- Ensure compliance with safety regulations and quality standards in all manufacturing processes
- Participate in equipment selection, installation, and qualification processes
- Troubleshoot and resolve complex manufacturing equipment and process issues

## Votre profil

### WHAT YOU BRING TO THE ROLE

- Bachelor's degree in Engineering Technology
- Exposure to a high volume manufacturing environment
- Knowledge of automation equipment, including scanners, vision systems, or automated placement equipment
- Proficiency in CAD software, preferably SolidWorks
- Excellent problem-solving skills and experience with root cause analysis techniques

## **A propos de nous**

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
