

Internship - Mechanical Requirements for ANS (Iasi)

Tvoji zadaci

Are you a student looking to gain real-world experience before graduation? Curious about how Mechanical Requirements are managed in the automotive industry? Then this Mechanical Requirement Internship open position is a great opportunity to start building your career!

As an Intern in our Mechanical team, you will become part of a world wide support organization that actively contributes to various stages of product development.

This role enables you to strengthen and expand your technical and organizational skills through close collaboration with experienced mentors and by using modern development methods and tools. We are looking for a self motivated and dedicated individual with a good command of English (speaking, writing, and listening), who is eager to learn and grow in a dynamic, international environment.

Do you want to work as internship? These should spark your interest:

- Define and manage mechanical requirements.
- Analyze customer and stakeholder needs and translate them in clear technical specifications.
- Maintain requirements traceability throughout the product lifecycle.
- Collaborate with mechanical engineering, systems engineering, electrical, and software teams.
- Ensure compliance with automotive industry standards, safety regulations, and customer specifications.
- Use requirements management tools to organize and track requirements.
- Collaborate with project teams (e.g. Project Managers and Technical Project Leaders) and support clarification of technical product requirements topics.
- Good knowledge of MS Office programs for structuring data, performing basic analyses, and supporting reporting activities.
- Use of AI tools to support requirements analysis, reduce repetitive manual work, improve efficiency, and simplify daily tasks, while assisting with documentation and reporting activities.

A mentor will support you to gradually take over own responsibility after an initial training phase which will familiarize you with our products, tools, processes and organization.

Tvoj profil

You can be a perfect match to our team if you have:

- Currently enrolled in a Technical University (e.g., Mechanical profile) starting from the 3rd year of studies;

O nama

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
