Internship - Embedded Software Engineer in PL4 ANS (Iasi)

หน้าที่ความรับผิดชอบในงานของคุณ

We are looking for a **motivated** and **curious** student to join our team as an Embedded Software Engineer Intern. In this role, you will support the development and testing of Integrated Body Controllers, working closely with experienced engineers and gaining hands-on exposure to **embedded development** and **real-time systems**.

Ready to work on real products, real hardware, and real code that actually ships? As an Embedded Software Engineer Intern, you will have the chance to focus on body control modules and embedded systems — this isn't a "watch from the sidelines" internship, you'll write code and/or test features on real devices. You will also work with microcontrollers and gain a deeper understanding of low-level hardware-software interaction.

A mentor will support you to gradually take over own responsibility after an initial training phase which will familiarize you with our products, tools, processes and organization.

โปรไฟล์ของคุณ

You can be a perfect match to our team if you have:

- Currently enrolled as a student in Computer Engineering, Computer Science, or Electronics;
- Good programming skills (C, Embedded C);
- Strong interest in embedded systems;
- Basic understanding of microcontrollers and real-time systems;
- Analytical mindset and a strong willingness to learn;
- Good communication and teamwork skills;
- Understanding of technologies, microcontrollers;
- Knowledge on any of the AUTOSAR stacks or RTE would be a plus;
- Python scripting skills would be a plus.

ข้อเสนอของเรา

เกี่ยวกับเรา

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
