Customer Project Manager in Autonomous and Commercial Mobility | AUMOVIO Korea

Descrição da função

Customer Project Manager in Autonomous and Commercial Mobility | AUMOVIO Korea

The Customer Project Manager(CPM) is the overall owner and leader of the project responsible for the overall planning, execution and delivery. He/she is responsible to ensure successful project completion according to project targets, within the agreed time schedule, according to budget and with high quality. He/she is the primary internal and external interface for the project.

Main Activities:

- Plans and controls the project time schedule including all major project activities (i.e. PLC(Product Life Cycle)/MLC(Model Life Cycle) release planning, sample builds, customer deliveries, test events).
- Ensures on time execution of work packages, initiates countermeasures in case of deviations and escalates as needed.
- Controls project scope via project target definition and subsequent change management.
- Leads and owns overall change management and change approval activities within the project. Responsible for project costs resulting from changes and ensures either reimbursement or recovery measures.
- Leads and owns the project budget including project budget planning, execution within the defined budget, efficient cost management and ensuring proper reimbursement.
- Ensures product cost and profitability are within project targets.
- Leads overall sample planning activities including prototype phase definition and input for sample VRM(Vehicle Requirement Management).
- Prepares and performs gate releases to ensure all necessary activities are performed and the required release documents are available for final release by the Gate Release Director.
- Serves as primary customer interface for project related issues and defines project level customer strategy with IPT and management.
- Reports progress of project to internal and external stakeholders.

Quem somos

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
