

Business Area Global Allocation Management Specialist (m/f/div)

Your tasks

This is a full-time, on-site position based in Sibiu. Remote work is not available for this role.

In this role, you will be responsible for managing global supply chain productivity, ensuring material availability across business areas, and driving demand planning initiatives in alignment with production requirements. You will lead cross-functional teams to optimize allocation strategies, manage supplier capacity, establish performance KPIs, and support manufacturing operations. This role has a strong impact on operational efficiency, supplier performance, and financial outcomes.

Check out your future responsibilities below:

- **Demand Management & SCM Productivity**
 - Manage global SCM productivity by setting and tracking KPIs (e.g., supplier performance, on-time delivery).
 - Address material shortages and lead allocation decisions.
 - Coordinate cross-functional demand planning and align volume scenarios.
- **Supplier Capacity Management**
 - Assess supplier capacity to meet short- and mid-term demand.
 - Monitor key suppliers and align capacity with global demand and purchasing plans.
 - Proactively identify constraints and define mitigation strategies.
- **Strategic Logistics & Risk Management**
 - Define logistics and allocation strategies with internal stakeholders.
 - Ensure compliance with operational, legal, and customs requirements.
 - Coordinate product transfers and support footprint strategy.
- **Performance Management**
 - Track logistics KPIs (cost, inventory turnover, supplier performance).
 - Support factories with reporting and performance analysis.
- **Cross-Functional Collaboration**
 - Act as key contact for supplier-related topics.
 - Work with procurement, engineering, warehouses, and production teams.
- **Supplier Lifecycle Management**
 - Support supplier engagement and logistics contract management.
 - Drive improvements in supplier performance and collaboration.
- **Reporting & Analysis:**
 - Deliver reports and dashboards on material availability, allocation, and KPIs.
 - Maintain clear documentation of decisions and demand drivers.
- **Process Optimization:**
 - Improve allocation and demand planning processes and implement best practices to enhance efficiency and material availability.

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
